PREFACE

Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1989-1990, contains the statistical picture of public libraries in Illinois during the fiscal year 1989-90. This publication can be used in conjunction with the management profiles that are prepared and distributed to individual public libraries in Illinois.

In addition to statewide statistical listings, data have been summarized for each of eight population groups and for each library system. Ratios and percentages based on those statistics were calculated and are presented in tables for each library, population group, and library system.

The Library Research Center(LRC) staff would like to thank Kathleen Bloomberg and Stanley Adams of the Illinois State Library for their advice and assistance throughout the project. Also contributing their expertise are members of the Statistical Services Advisory Committee (Fred Schlipf, John Moorman, John Blegen, Peter McElhinney, Jan Miller, and Thomas Moran) from the public/system library community. This committee meets semiannually to advise the LRC on content, interpretation, and presentation of data and on the format and usefulness of products produced by the LRC.

This issue is a result of the work of many LRC staff. Leigh Estabrook, Dean of the Graduate School of Library & Information Science, serves as Director of the LRC and provides the necessary environment for successful production of the document. Katy Sherlock as the former Assistant Director and Chris Horak as current Assistant Director of the LRC managed the Statistical Services Project of which this publication is a part. Katy Sherlock wrote the Executive Summary. As data analyst on the project, Lynn Hamilton provided assistance with coding of the IPLARs, produced charts, and provided the statistics necessary for completion of this publication. John Walder provided computer expertise throughout the project and was responsible for the production of the tables included in this volume. Kymberlee Mills and Pat Boze coded IPLARs and resolved problems with the data. Diane Schober and Shari Grindley managed records associated with the project and assisted with coding. Special thanks to our student assistants, Ron Beals, Laura Brennan, Ray Fouche, Barbara Johnson, Jennifer Perica, Tiffany Severns and Tanya Zerbonia who spent countless hours precoding and inputting IPLAR forms.

INTRODUCTION

Libraries can be understood in many ways; by working in them, by visiting them, and by reading verbal and numerical descriptions of them. Numerical or statistical, descriptions condense factual information about many aspects of library operations and present the information in a variety of ways, each providing a different view of the total library picture.

This publication, **Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1989-1990**, presents statistical pictures of Illinois Public Libraries during the fiscal year 1989-1990. The information is derived from the 1989-90 Illinois Public Library Annual Report forms.

Statistics should be seen by librarians and trustees as tools and not as ends in themselves. The value of the statistics published here is that they can be used both internally and externally by the library's administration. Internally, the library's individual statistics can be compared to previous years' statistics as a way to track performance, to assess the success of the library's chosen goals, to set new service and management objectives, or to keep the library headed in its chosen direction. Externally, the library's statistics can be compared to other libraries of similar size and environment to determine whether the library is above or below the average for its system or population group, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress.

STATISTICAL VIEWS OF ILLINOIS PUBLIC LIBRARIES

Three statistical pictures of Illinois public libraries are presented in this publication:

SECTION I: STATEWIDE PUBLIC LIBRARY STATISTICAL SUMMARY
This section presents facts about library operations for each public library in Illinois submitting an Illinois Public Library Annual Report for 1989-90, including use, resources, and finances.

SECTION II: PUBLIC LIBRARIES GROUPED BY SIZE OF POPULATION SERVED
This section describes statistical averages and percentiles for libraries providing direct service and serving populations of different sizes. Selected aspects of library operation are listed for individual libraries, and provided in summary form for each population group.

SECTION III: PUBLIC LIBRARIES GROUPED BY SYSTEM
This section describes statistical averages and percentiles for libraries providing direct service with membership in one of Illinois' 18 multi-type library systems. This year a table listing statistics for each library has been provided for every system. Selected aspects of library operations are then provided in summary form for each library system. Charts that compare the individual systems are presented at the end of this section.

Illinois Public Libraries 1989-90
Executive Summary

This section presents a descriptive summary of the operations of Illinois Public Libraries in the 1989-1990 fiscal year. Data is taken from Illinois Public Library Annual Reports filed by 617 Illinois Public Libraries. Four public libraries did not file the annual report in fiscal year 1989-90.

Number of Illinois Public Libraries and Administrative Type

The number of public libraries in Illinois increased from 619 to 621 in the 1989-1990 fiscal year. In 1985 the number of public libraries was reported to be 610. Since 1985 the number of district libraries has increased while the number of township, city and village libraries decreased. Township libraries showed the most significant decrease, from 136 libraries (22.3%) in 1985 to 76 libraries (12.2%) in 1990, while the total number of city and village libraries dropped only slightly.

Public Libraries by Administrative Type

	1985		1989		1990

District	129	21.0	220	35.5	231	37.2
City	207	34.0	193	31.2	190	31.0
Village	133	21.8	119	19.2	119	19.0
Township	136	22.3	81	13.0	76	12.2
County	2	.3	2	.3	2	.3
Town	3	.5	4	.6	3	.5
Total	610	100	619	100	621	100

Population Served

Illinois public libraries reported a total population served of 10,191,992 in 1990. This figure represents a .7 % increase over the 1989 reported figure of 10,123,216, and a 4.6% increase over the 1985 reported figure of 9,743,672.

Use of Library Resources

In 1990, 69,301,179 circulation transactions were reported by Illinois Public Libraries. This is a 4.6% increase over the 1989 reported figure of 66,262,549 and a 15% increase over the 1985 reported figure of 60,313,032. While the increase in total circulation was fairly substantial, per capita circulation only increased from 6.2% in 1985 to 6.8% in 1990. Reference transactions totaled 10,046,975 in 1990 (592 libraries reporting). This is a decrease of 7.7% over the 1989 reported figure of 10,886,281 (587 libraries reporting). Public libraries were not asked to report reference transactions in the 1984/1985 fiscal year, so comparable data is not available.

Library Staff

In 1990 Illinois public libraries reported 5,628 full-time equivalent(FTE) staff. Included in this figure are professional librarians, technical and clerical employees and pages or shelvers (Group A, B, and C employees as found on page 4 of the Illinois Public Library Annual Report). This number is an increase of less than 2% over 1989 (5,524) and an increase of 14.7% over 1985 (4,906). The number of FTE staff per 1000 persons served is .55, an increase of 10% over the .50 FTE staff per 1000 persons served in 1985. FTE staff is calculated using a 40 hour work week.

Library Financial Support

Total receipts reported in fiscal year 1990 were $246,645,857. Funds broken down by source are: $195,115,036 from local governments (79.1%); $20,586,410 from state sources (8.4%); $3,469,198 from federal sources (1.4%); and $27,468,524 from other sources (11.1%). Since 1985 the percent income derived from the same sources has remained relatively constant with income from state sources showing a modest increase.

Percent Income by Source

	1985	1989	1990
Local	80.3	78.4	79.1
State	5.9	8.1	8.4
Federal	1.7	1.3	1.4
Other	12.1	12.2	11.1
Total	100%	100%	100%

Income per capita reported in 1990 was $24.20, up from $22.60 in 1989 and $17.99 in 1985. In 1985 dollars income per capita has increased by 11% since 1985. Total equalized assessed valuation reported for 1990 (in thousands of dollars) is $65,524,550. This is a 5.2% increase over the 1985 reported figure of $62,084,641.

Library Expenditures

Total library expenditures reported in 1990 were $257,360,660. Total operating expenditures equalled $216,830,823 while materials expenditures were $34,018,247. In 1985, total expenditures of $162,187,456 were reported. Of this total $145,380,891 was spent on operating costs, and $23,350,904 was spent on materials. In actual and constant dollars the per capita dollar amounts for 1985 and 1990 are:

Per Capita Expenditures

	1985	1990	
	Actual	Actual	Adj.*
Total Expenditures	$16.64	$25.25	$20.78
Total Operating Expenditures	$14.92	$21.27	$17.51
Total Material Expenditures	$ 2.39	$ 3.33	$ 2.74

*Adjusted to 1985 dollars.

When adjusted for inflation, per capita income increased by 11% between 1985 and 1990, while total expenditures per capita increased by 25% for that same period. Total per capita operating expenditures and material expenditures showed increases of 17.3% and 14.6%, respectively.

SECTION I: STATEWIDE PUBLIC LIBRARY STATISTICAL SUMMARY

Basic statistics for each library are listed in this section, offering the individual view of libraries. The figures in this section are total figures for 1989-90 for each library. These statistics provide the library with basic information on the question "where are we?" This is the baseline information needed by librarians and trustees in planning and managing library services. A library often uses other libraries for comparison. This statistics listing will allow an individual library to review the statistics of the libraries of interest. These comparison libraries may be those serving similarly-sized communities or neighboring libraries.

Data included in the tables in this section are reported on the Illinois Annual Report Forms submitted by 617 (out of a total of 621) public libraries. For the statistics listing, libraries are listed alphabetically in order by location, with the legal name used as a subheading. The tax information is supplied by the Illinois Department of Revenue and is reported for all 621 libraries. The cross-reference listing is included to connect the legal name of libraries with their corresponding location. The variables for which statistics are computed are defined in the definitions section at the end of the publication.

FOOTNOTES

Footnotes to the data file are chosen primarily on the basis of a library's self-reported anomalies. By grouping the footnotes into categories and listing those libraries reporting similar information under each heading, it should be easier to retrieve the information for a specific library.

The libraries are listed by location, and then by legal name of library if there is more than one library located in that city. The location listing is determined by the mailing address of the library.

SECTION II: PUBLIC LIBRARIES GROUPED BY SIZE OF POPULATION SERVED

This section examines public libraries by population, a common comparison group for individual libraries. In the tables that follow, libraries are grouped by the size of population served. The eight population groups are:

- Under 1,500
- 1,500 to 2,999
- 3,000 to 4,999
- 5,000 to 9,999
- 10,000 to 24,999
- 25,000 to 49,999
- 50,000 to 74,999
- 75,000 to 250,000

For each population group, there is one table; "Ratios and Percentages Derived from Statistics of Public Libraries Serving a Selected Population Group". Summary tables of averages, percentiles, ratios and percentages are found in Tables 2.1 and 2.2 at the beginning of the section.

The statistics presented in the table for each population group are derived from the data in Section 1. Ratios combine two of the basic statistics, such as the number of circulation transactions per capita. A library might have 10.4 circulation transactions per person based on population served. Percentages look at one statistic as a percentage of another, such as adult circulation as a percentage of total circulation. A library may have an adult circulation that accounts for 62% of total circulation.

The charts provide a visual comparison of selected items across the different population groupings. Comparisons among different population groups can suggest general trends as well as differences among the various population groupings. In addition to the charts given here, figures from the summaries of basic statistics tables and the summaries of ratios and percentage tables can be used for comparison among the population groupings.

SECTION III: PUBLIC LIBRARIES GROUPED BY SYSTEM

As discussed in the introduction to Section 2, statistics provide useful descriptions of groups of libraries. In the tables in this section, libraries are grouped by their membership in one of Illinois' 18 multi-type library systems.

For each system, there are two tables; "Table of Selected Statistics for Public Libraries in a Selected System" and "Ratios and Percentages Derived from Statistics of Public Libraries in a Selected System". Summary tables of averages, percentiles, ratios and percentages are found in Tables 3.1 and 3.2 at the beginning of the section.

The statistics presented in the tables for each system are derived from the data in Section 1. Ratios combine two of the basic statistics, such as the number of circulation transactions per capita. A library might have 10.4 circulation transactions per person based on population served. Percentages look at one statistic as a percentage of another, such as adult circulation as a percentage of total circulation. A library may have an adult circulation that accounts for 62% of total circulation.

The charts provide a visual comparison of selected items across the different systems. Comparisons among different systems can suggest general trends as well as differences among the various systems. In addition to the charts given here, figures from the summaries of basic statistics tables and the summaries of ratios and percentages tables can be used for comparison among the systems.

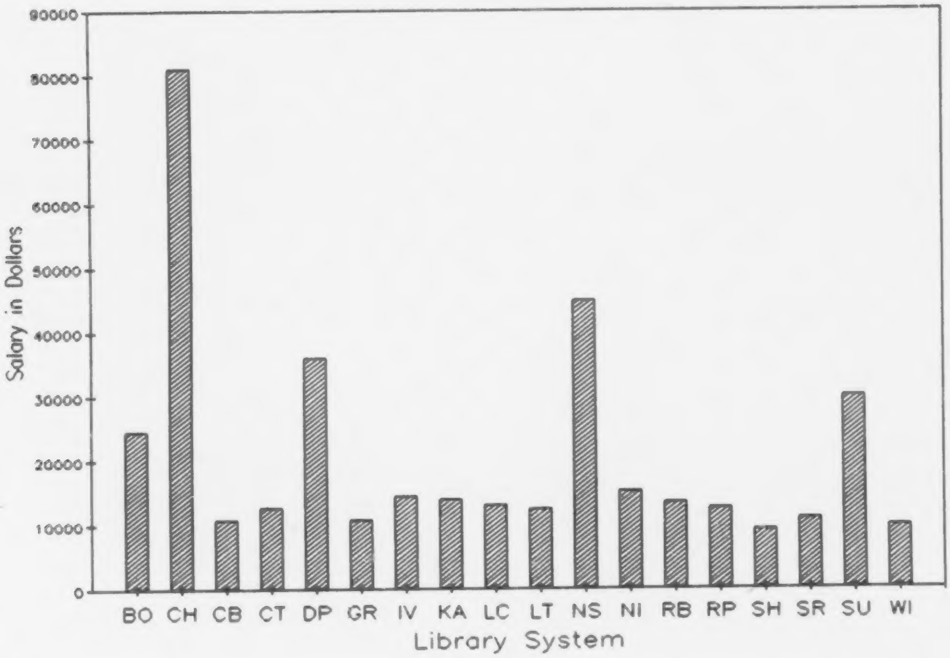
Average Salary of Head Librarian
by Library System in 1989-90



Definitions

These definitions are for variables included in the statistics listings for tables in this publication. The source for these statistics, unless otherwise indicated, is the 1989-90 Illinois Public Library Annual Report form (IPLAR). Other sources of data include the 1980 Census (CENSUS), the 1988 Illinois Department of Revenue tax information tape (TAPE), and the Illinois State Library (ISL). The definitions are listed in alphabetical order.

ASSD VAL PER CAP: Assessed valuation per capita. The assessed valuation of the area served per capita, in dollars. (TAPE, CENSUS, ISL)

AUDIOVISUAL EXPENDITURES: Expenditures for audiovisual and all other non-print materials.

BOOK STOCK ADDED: Total number of book volumes added.

BOOK STOCK HELD: Total number of book volumes held at the end of the year.

EQUALIZED ASSESSED VALUATION: Equalized assessed valuation is the figure of real property reported in thousands of dollars. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1988 assessment year. For public libraries whose service area is in more than one county, a separate assessment and tax rate is shown for each county. (TAPE)

EXPENDITURES FOR WAGES AND SALARIES: Included in this figure are wages and salaries paid to all staff except maintenance personnel and fringe benefits such as the library's contribution for insurance, social security, and the Illinois Municipal Retirement Fund.

FILMS: Included in this figure are 8mm and 16mm motion picture films, videotapes, videocassettes, and videodiscs.

FTE PER 1000 POP: Full-time equivalent, based on a 40 hour work week, per 1,000 population. The number of full-time equivalent staff, excluding building maintenance staff, per 1,000 population. (CENSUS, ISL)

HOURS OPEN PER WEEK: The number of hours the central library was open during a typical week in October 1989.

LIBRARY MATERIALS EXPENDITURES: Expenditures for all library materials.

LOCAL GOVERNMENT RECEIPTS: The amount of revenue received by the library from local government sources during the fiscal year. This amount does not include a working balance from the previous year, income from tax anticipation warrants, revenue sharing, proceeds of a bond issue, or the monetary value of services provided free by the local government (e.g., audit tax, social security tax, and working cash fund tax). This figure includes income for the year in which the money is received.

MAT EXP PER CAP: Materials expenditures per capita. Expenditures per capita for library materials, in dollars. (CENSUS, ISL)

MLS % OF TOTAL STAFF: Master's in library science percentage of total staff. Hours per week worked by staff holding a library degree at the master's level as a percentage of total FTE hours per week, not including building maintenance staff.

NONRESIDENT FEE: The nonresident fee shown is the fee charged per family per year for use of the library. Exceptions are indicated by a footnote.

OPER EXP PER CAP: Operating expenditures per capita. Total operating expenditures per capita, in dollars. (CENSUS, ISL)

OTHER OPERATING EXPENDITURES: Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures. This includes wages and fringe benefits for building maintenance staff, and other miscellaneous expenses.

PER CAPITA: Refers to any amount divided by the population of the library's service area. It is defined as "of, by, or for each individual".

PERCENTAGE (%) ADULT TRAN: Percentage of adult transactions. This is the circulation of adult materials as a percentage of the total circulation.

PERCENTAGE (%) LIB MAT: Percentage of library materials. Expenditures for library materials as a percentage of total operating expenditures.

PERCENTAGE (%) OTHER EXP: Percentage of other expenditures. Operating expenditures, other than expenditures for wages and library materials, as a percentage of total operating expenditures. This includes wages and fringe benefits for building maintenance staff, capital outlay, and other miscellaneous expenses.

PERCENTAGE (%) VOLS ADDED: Percentage of volumes added. The number of book volumes added as a percentage of the number of book volumes held at the end of the year.

PERCENTAGE (%) WAGES: Percentage of wages. Operating expenditures for wages, salaries and fringe benefits for paid staff, not including building maintenance staff, as a percentage of total operating expenditures.

PERIODICAL TITLES CURRENTLY RECEIVED: Number of periodical titles currently received.

POPULATION SERVED: The population according to the 1980 (or later special) Census for all but district libraries. The latter provided population figures for their service areas. (ISL, CENSUS)

PRINT EXPENDITURES: Expenditures for books, periodicals, microforms, and other printed materials.

RECORDINGS: Included in this figure are records, tapes, cassettes, compact disks, etc.

SAL HEAD LIBR: Salary of head librarian. Annual salary of the head librarian, as of the last day of the FY 1989/90. When an hourly wage was reported rather than an annual salary, the annual salary was calculated by multiplying the hourly wage times the number of hours worked per week times 52.

TAX RATE: The tax rate reported for all types of libraries is for general library use only and may not include rates levied by libraries for a variety of special purposes (e.g., social security or worker's compensation). Tax rates should be interpreted as follows: a tax rate of 0.12 is equal to 12 cents per $100 of assessed valuation. Information is taken from the abstracts on file with the Illinois Department of Revenue for the 1988 assessment year. (TAPE)

TOTAL EXPENDITURES: Total operating expenditures plus capital outlay (for sites, buildings, construction or remodeling, and purchase of vehicles, debt retirement and other major fixed assets).

TOTAL OPERATING EXPENDITURES: Expenditures for wages, salaries, and fringe benefits for all employees, for library materials, for supplies, for binding and rebinding, for plant operation and maintenance, and for all other current operating costs.

TOTAL RECEIPTS: The total amount of money received by the library from all sources during the fiscal year, including state aid, revenue sharing, receipts for capital expenditures, gifts, etc. This does not include the working balance from the previous year, income from tax anticipations warrants, or the monetary value of services provided by the local government. Excluded from this figure is income (e.g., endowment monies) given directly to the Friends of the Library group instead of the library.

TOTAL STAFF IN FTE: Full-Time Equivalence is figured on the basis of a 40-hour week. Included in this figure are professional staff, technical and clerical employees, and pages. Excluded from this figure are maintenance staff, persons not paid by the library, and vacant positions.

TOTAL TRANSACTIONS: The total direct circulation of all materials to library users. This figure includes both interlibrary loans received from other libraries and reciprocal borrowing.

TRAN PER CAP: Transactions per capita. The number of circulation transactions per capita for the population served. (CENSUS, ISL)

TRAN PER FTE: Transactions per paid full-time equivalent staff. The number of circulation transactions per paid, full-time equivalent staff, excluding building maintenance staff, based on a 40-hour work week.

TRAN PER HOUR OPEN: Transactions per hour open. The number of circulation transactions per hour the central library was open. This is found by dividing the total number of circulation transactions for the year by 52 times the number of hours open during a typical week in October 1989.

TRAN PER ITEM HELD: Transactions per item held. The number of circulation transactions per item in the collection, including books, films, video materials and audio recordings.

VOLS ADDED: The number of book volumes added during the fiscal year.

VOLS HELD: The number of book volumes held by the library.

VOLS ADDED PER CAP: Volumes added per capita. The number of book volumes added per capita. (CENSUS, ISL)

VOLS HELD PER CAP: Volumes held per capita. The number of book volumes held per capita. (CENSUS, ISL)

WAGES AND SALARIES: Total expenditures for wages, salaries, and fringe benefits of all staff employees excluding maintenance staff.

ILLINOIS STATE LIBRARY, SPRINGFIELD, IL 62756
PUBLIC LIBRARY ANNUAL REPORT
1989-1990

Every public library in Illinois is required by law (Chapter 81, Sec. 4-10, and elsewhere in the ***Illinois Revised Statutes***) to file this annual report with the State Library. The purpose of this report is to obtain and publish data on the resources and services of all Illinois public libraries for use by all concerned. Each library is asked to file this report with its system headquarters **AS SOON AS POSSIBLE UPON (AND BY NO LATER THAN 30 DAYS AFTER)** completion of its fiscal year ending between July 1, 1989, and June 30, 1990. Please complete and return this form promptly. (By law, public library districts have until Oct. 1 to file this report; however, it would be appreciated if the form is filed by Aug. 1.) Every public library district should send the State Library a copy of the certified audit of its accounts within 6 months of the close of the fiscal year. That document can be sent to the State Library later.

Please do **not** leave any item blank. Enter "0" if the appropriate entry for an item is zero or "none." Enter "N.A." if an item does not apply to your library. If an exact figure is not available for a particular item, but it is known that the amount is greater than zero, enter an estimate of the amount. Type your responses or print in black ink. To help prevent mistakes in assembling photocopies of several different libraries' reports, please write the name of your library in the line provided in the right hand margin of pages 1-6.
